DETAILED ACTION

1. This action is in response to applicant's amendment filed on 15 June 2006. **Claims 1-4, 6-9, and 11-24** are now pending in the present application and **claims 5 and 10** are canceled. This office action is made **Final**.

Drawings

2. The drawings are objected to because of **Form PTO-948**. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections

3. The objections applied to the claims are withdrawn, as the proposed claim corrections are approved.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 6 including dependent **claims 2-4, 7-9, and 11-24** are rejected under 35

U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

- a. **Claims 1 and 6** include the limitation "...without illuminating surrounding keys..." as recited in line(s) 21 of claim 1.

Regarding **claims 1 and 6**, the claims include a limitation that is not supported by the instant application or specification as originally filed. The applicant failed to provide support (i.e., page(s), line(s), and drawing(s)) for the newly amended claim limitation. The applicant is advised to review the subject matter of the specification (see pg. 5, lines 9-17), which basically states that the navigation keys and housing surface areas are illuminated in navigation mode. Furthermore, the new drawings 1-3 that were submitted post Final Action indicate keys (i.e, Enter 32, M 22, and End 34) of keypad (20) are illuminated during both alphanumeric and navigation mode. The Examiner respectfully requests the applicant to provide page(s), line(s), and figure(s) of the instant application that supports the limitation of the claim(s) and/or any supportive comment(s) to help clarify and resolve this issue(s).

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 20 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. **Claims 20 and 24** includes the limitation "...cross-like..." as recited in line(s) 3 of claim 20 which render the claims indefinite.

Regarding claims 20 and 24, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

6. This list of examples is not intended to be exhaustive. The Examiner respectfully requests the applicant to review all claims and clarify the issues as listed above as well as any other issue(s) that are not listed.

Response to Arguments

7. Applicant's arguments with respect to claims 1-4, 6-9, and 11-24 have been considered but are moot in view of the new ground(s) of rejection.
8. Applicant amended the claim language but failed to provide support (i.e., page(s), line(s), and drawing(s)) for the newly amended claim language. The Examiner requests applicant to provide support for the response filed 15 June 2006 and any further amended claim language.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
